

LOCO MOCO

SECURITY CONFERENCE

**KAUA'I MARRIOTT RESORT
LIHUE, HAWAII**

APRIL 16-19, 2019

WHAT IS LOCO MOCO SEC?

The Loco Moco Security Conference (aka “@LocoMocoSec”) is a product security conference for builders, defenders, and other professionals interested in making long lasting changes to the state of web security. While we value the work of breakers and researchers, we cater to those making it harder to break things.

The Loco Moco Security Conference will provide attendees comprehensive, practical knowledge that they can directly apply to their day jobs. The carefully curated list of invited speakers were chosen for their specific backgrounds and presentation ability. Each one helps tell part of the story of how to run or contribute to an effective product security program.

WHO ATTENDS LOCO MOCO SEC?

Those who drive change. Including everyone from C-levels with purchase authority down to the hungry entry level engineers. This event will draw in a more focused, high-end audience actively seeking out more information on security solutions and best practices. Industry practitioners that attend this event are looking for advice and solutions they can immediately put into place when they leave to achieve their goal of a more secure IT environment.

BENEFITS OF SPONSORING

- * Promote Your Products & Service Offering
- * Generate Quality Leads
- * Increase Brand Recognition

Take advantage of this opportunity to engage more intimately with your desired audience and be top of mind when they are looking for advice and solutions.

VENUE

Centrally located on Kalapaki Beach in Lihue, on the Hawaiian island of Kaua'i, the Kaua'i Marriott Resort offers an array of superb indoor and outdoor venues, ideal for conferences. Top-tier amenities at the luxury hotel include a complimentary 24-hour business center, five popular restaurants and bars, easy access to popular attractions and a free shuttle to Lihue Airport.

In an effort to make this a valuable experience for all sponsors, we have created packages to meet a variety of budgets and objectives.
